

Animals roaming the city

Animals evrywhere

Yesterday they has been many reports of animals such as lions and other dangerous animals just walking around the city and cuasing alot of damage to our beloved city.Many has asked were or those animals coming from.after they have checked the satlite it turns out the forest has caught has been caught on fire from a nearby building and now the forest is buring.They asked the owner of the house what caught the fire he said "i left my oven open and i did not pay atention to it and caught the house and fire then the house fire cuased the tree to catch on fire which cuased the whole forest to burn.

What to do

If you see any animals you **must** report to the the to the assoction of wild animals.experts suggest to stay in your houses at **all** times and only go outdoors when needed.They have been many reports of children injured so parents make sure you keep an eye on your children.

The resualts

The army has been contacted and they are on they're way and they are trying to capture all the animals without harming any of them and just captureing them and locking them in cells.after that they are sending all the animals to the animal organzation where they will be taken care of.Also they have been many shot animals becuase they have been spotted killing attacking humans so for safety reasons they have been shot.
